
The Ultimate in Mold and Termite Prevention

Easy - Safe - Secure

The Wise Choice

No other product performs as well as **ShieldAll® 2020** in preventing termites and mold growth. But as hard as it works, it's incredibly simple and cost effective to apply. **ShieldAll® 2020** has been tested and proven to offer long-term mold and termite-resistance under the most demanding condition.

Mold Prevention

ShieldAll® 2020 is a water-based coating containing fungistatic agents that provide long-term resistance to the growth of mold or mildew on its surface. The product is fast drying and provides resistance to water penetration. The product is breathable, allowing damp materials to dry quickly.

Termite Prevention

ShieldAll® 2020 is a great barrier for termites and other wood-boring insects and is ideal for use in new construction, manufactured housing, RV manufacturing, remodeling, and disaster restoration. When applied over all types of wooden surfaces, termites and other wood-boring insects cannot eat through to tunnel under it.

Flexible Use - Easy Application

ShieldAll® 2020 is a paint-like product, providing a clean uniform surface that is completely safe for applicators and building owners. It is also easy to apply with a roller, brush, or basic airless spray equipment and it cleans up with soap and water. While **ShieldAll® 2020** goes on like paint, the protection it offers will have a long-lasting effect for years and years.
